INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** Not only an example of my development skill showcasing full stack development, but also a way to get to know me, some of my colleagues, and get in contact with me. mattroberts-dev.com
 - **StoreFront:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
 - **S.A.T. Scheduling Administration Tool:** Created a secure application for managing product data. Application is built to simulate an online class scheduling system. Administrators will have the ability to manage students, courses, scheduled classes, and enrollments.
-
